DIRECT VENT GAS FIREPLACES

## **B36S** DIRECT VENT GAS FIREPLACE

If you're looking for the beauty of a real log fire but not the hassle of storing and maintaining the wood, a gas fireplace may be just for you.

The B36S Direct-Vent Fireplace is the perfect solution for anyone looking to have a beautiful fire that provides supplemental heat in mid-sized homes with very little maintenance.

- Stunning modern fireplace with realistic logs and impressive flame pattern
- Standard firescreen front, eliminating glass glare and providing protection from accidental contact
- Standard Intelli-fire ignition system, saving running costs as pilot light is only operational when fire is switched on
- Choice of 3 or 4 sided 115mm black surround
- 413mm profile - great for smaller spaces
- Top or rear direct vent balance flue, ensuring indoor air quality with 100% of exhaust expelled
- Steady state efficiency rating of 81.3% - steady state measures how efficiently your fireplace converts fuel to heat once it is warmed up and running.

### Minimum frame opening

H 883mm W 940mm D 413mm

### Limited lifetime warranty.

The strongest in the industry. Hearth & Home Technologies provides a limited lifetime warranty on gas-burning products of the most important aspects: firebox and heat exchanger. For full warranty details see manual.
