Options

The Multi49 electric fireplace gives you the look you love, without any fuss. Get the warmth and ambience of a real fire, in any space. Installation is easy, there's no maintenance, and it's safe to touch.

Simply Beautiful

Clean lines give this electric fire a sleek simplicity that works with any interior style. The design is seamless, with no visible details taking away from the beauty of flames.

Design Choice

With the Multi49 fireplace you can choose to put glass on any side, or all three. Choose one side for a simple linear look, two sides for a corner design, or three for a striking bay installation.

Full Control

The Multi49 gives you full control of the LED lighting, fuelbed, flame and heat output. Change your settings on the remote control or touch panel control.
